Suffering .- There is more suffering in the city now than ever. We have heard a story that is too terrible to be lieve. It was that on the commencement of the hard times, four Germans who Lad married sisters, went to live together with their mother and father-in-law, boping that by being all together much might e saved. The plan would have worked well, but labor was not to be had, and veterday, our informant states, that the whole family, including two young chil-dren, had been without food for nearly three days .- Buffalo Republic.

Col. man, living about formeen miles from Chair pati, was—so and s the Gazette—tra-ken by a company of his neighbors, and threatened with hanging unless he made confession. Refusing to do this, he was run up by the neck until nearly strangled, when refusing to confess he was run up again and kept hanging until blood gus-hed from his nose, when he was lowered io an unconscious state. Reviving, he still refused to confess when he was laid scross a log and so severely flogged that his life is despaired of.

SARGENT'S SELF-GENERATING SPIRIT

GAS LAMPS NEXT to the Magnetic Telegraph, the greatest wonder of the age, is Sargent's Gas
Lamp. It gives more light, at less expense,
than anything that has heretofore been offered
the public, and brings to the residence and
place of business of every one a portable gas
work, equal in every respect to the best sity gas.
These lamps, though but recently patented,
[March 17, 1857.] are already in general use in
Pennsylvania, Delaware, Maryland and New
York: Each burner has a non-conductor of heat,
thus obviating any danger of expleding which
is said to be the case with the ordinary Camphene and Fluid Lamp. They have been fully
tested, and have proved themselves unexceptionable: they will produce more light than
four ordinary lamps. The subscribers have
purchased the right for the sale of these celebrated lamps, and now offer to the citizens of
Ashland and surrounding country, a light-equally as brilliant, and cheaper than city manufactured gas. A light on exhibition cach evening

IMPORTANT TO TOBACCO CHEWERS! DR. GUSTAV LINNARD'S TASTE RESTORATIVE TROCHES!

The Great Substitute for Tobacco. Tisa well known and incontrovertible fact that the inordinate me of Polacco is the frometiag cause of many of the most severe . MENTAL AND PHYSICAL DISORDERS to which the race of man is subject, ascarsful analysis and long and painful experience have clearly proven that it contains certain nercotic properties most insiduous in their effects, which, by entering into the blood, dorse jethe operations and functions of the Heart, causing many to suppose they are troubled with a chronic affection of illatio, and Toldacco affects also the entire nervous system, manifesting itself—as all who have used the nexious weed will bear testimony—in Lassinude, Nervous Irritability, Water Brash, Dyspepsia, and many staer disorders of a similar character, opposite J.R. Squire's Store, where he has opened a large and beutiful assortment of

THE TASTE RESTORATIVE TROCHES Are designed to counteract these baneful influences, and have proved completely successfully a multiunder of cares, and wherever used. Being harmless in themselves they exert a beneficial effect abon the
outlie system, restoring the Taste which has become
vitiated by great indulgence, completely removing
the irritation accompanying fleking sensation of
the Threat—which are always consequent upon abstaining from the use of Tobacco, and by giving a
staining from the use of Tobacco, and by giving a
sealthy tone to the Stomach, invigorate the whele
system.

J. P. The Hair - People have for centuries been afflicted with bald heads, and the only remedy, here-left to fore known, has been those abominable wigs. By a recent discovery of Professor Wood these articles are being fast dispensed with, but a great many persons atili patronize them, because they have been so often imposed upon by Hair Tonics of different kining. To all such persons we carnessity make the request, that they will try once again, for in Wood's Restorative there is no such thing as fall—e we know of a lady who was bald, who used the articles short time, and her bead is now covered on pletely with the tiniest and moft beautiful curis in a glaable. We know of numerous cases where he're was rapidly talling out which threstored in greater perfection than it ever had been before.

It is also without doubt one of the nest articles for keeping the hair in good condition; maling it soft and glossy, removing dandroff, and has proved itself the greatestenemy to airthe fils that hair is heir to.

It is the duty of every one to improve their person al appearance though some may differ in regard to the wars of doing it; but every one will semit that a beautiful head of hair, either in man or woman is an object much to be desired, and there are no means that should be left untired to obtain such a consideration.—We man's Advecate, Philladelphia.

O. J. WOOD & Co.—Gents: As I have been engreed in selling your Hair Restrative the last season for one of your local agents (R. M. Hackinson, and having experienced the heneficial effects of it myself. I would like to obtain an agency for the State of Ohio or some State in the West, should you wish to make such an arronement, as I am convinced there is nething equal to it in the Onited States, for restoring the hair. I have been engaged in the Drug husiness for several years, and have sold various preparations for the harr, but have found withing that restores he sective organs or invigorates the scalp as well as years, being fully convinced that he scalp as well as y Ashland, May 20, 1857.
